

Welcome to Hearing Life

Hearing Life is a worldwide company with our US headquarters in New Jersey. Our office is located in East Windsor Connecticut. Our focus and our passion continues to be to help improve the quality of life for you, your family, and friends through better hearing. We provide the best personalized hearing healthcare for each patient's individual needs. We take pride in our superior individualized service and products. We are one of the world's leading innovators in Hearing Technology. People first is our promise to empower people to communicate, interact naturally and enjoy the world around them.

We stand firm in our belief that everyone over the age of 50 should have a hearing assessment to look for risk factors and early warning signs. You do not have to have a hearing loss to warrant a hearing evaluation. You should start monitoring your hearing by having a base line test. Having a base line test will prove very valuable in case of an unforeseen event, whether an illness or accident occurs in which your hearing is affected. You will have a base line exam to reference to show any possible changes and prove to be very beneficial.

There are many factors that may contribute to hearing loss: age, hereditary, noise exposure, illness, medications to name a few.

Whether you feel you are not hearing as well as you should, or a loved one or friend are not hearing as well as they should, please schedule a complimentary hearing exam.

Untreated hearing loss can have serious long-term consequences, including increased risk of falling, depression, Alzheimer's disease, dementia and more. Hearing loss slowly separates you or loved ones from the people and activities you love. Your sense of hearing is a vital link to your world – a source of pleasure, information and communication.

We also offer to clean and check your existing instruments at no charge to you.

Please take a moment to fill out the top warning signs of hearing loss questionnaire. If you are experiencing two or more of the following symptoms, you may be suffering from a hearing loss.

We are an in-network provider with most major insurance carriers and managed care companies for hearing aid benefits.

Please give us a call and we will be happy to set up an appointment for you with our friendly, knowledgeable staff and we offer extended evening hours.

We look forward to being your trusted Hearing Care Provider.

QUESTIONNAIRE

Please answer these questions to help you better understand your needs. Feel free to talk these over with your family and friends.

1. Do you think you have a hearing loss?
2. Has your hearing been frustrating you?
3. Have your family members or friends mentioned anything about your hearing?
4. Does your hearing cause you difficulty when listening to TV or radio?
5. When attending religious functions or similar events?
6. Understanding voices in background noise?
7. When talking with your spouse or other family members?
8. When you are on the phone?

If your hearing was improved, how would things be different for you?
