NORTHWESTERN OHIO SECURITY SYSTEMS, INC.

Residential Products

Why choose us?

"It's a matter of trust. For over 30 years, generations of families and businesses placed their trust in Northwestern Ohio Security Systems, Inc. to provide security. We put your interests and needs first. We then apply the best products on the market to give you the most cost-effective solution. Many of our employees have been doing this for over 20 years! You see the same people and know your security is in very experienced hands.

Our service technicians are factory trained and network certified, with most having over 10 years of experience. Their goal is to service your needs quickly, and do the job right the first time. Experience counts and saves you money! **Your satisfaction is 100% guaranteed.**"

Sincerely,

Trell Yocum & Jim Kostelac

Alerts when a door or window has been opened (not broken).

Suggested uses:
- Entry/exit doors
- Garage door
- Ground floor windows
- Medicine cabinet

Glass Break Sensors

Alerts at the sound of breaking glass.

Suggested uses:
- Room with multiple windows
- Near large, inoperable windows

Motion Detectors

Alerts when there is motion detected in the area. Pet-friendly devices are available.

Suggested uses:
- Basement
- Hallways
- Office
- Family Room

Standard Equipment & Accessories

All-in-One Keypad

Controls the system; view status, arm/disarm, test the system; sends signals to our Monitoring Station.

Suggested uses:
- Beside most frequently used doors

Keyfob

Arm/Disarm the system outside your home.

Suggested uses:
- Keychain

Siren

Emits loud sound in the event of an alarm.

Suggested uses:
- Place indoors to deter burglars

Wireless Repeater

Reach Devices in Detached Garages & Buildings

Suggested uses:
- Larger homes

Environmental Detection & Life Safety

Smoke Detector

Alerts when smoke is detected.

Suggested uses:
- Inside all bedrooms
- Outside bedroom areas
- In all living spaces
- On all levels

Heat Detector

Alerts when temperatures exceed a specified level. Recommended for normally smokey or dusty areas.

Suggested uses:
- **Garage**
- **Kitchen**
- **Attic**

Carbon Monoxide Detector

Alerts when a dangerous level of carbon monoxide gas is detected.

Suggested uses:
- On all levels
- Near sleeping areas
- Garage
- Near gas appliances

Temperature Sensor

Detects when the temperature moves above/below set limits.

Suggested uses:
- Vacation/second home

Environmental Detection & Life Safety

Water Monitor

Alerts when water makes contact with the device.

Suggested uses:
- Near water pipes
- Near water heater
- Under sinks
- Near sump pump

Emergency LED Light

Automatically turns on during specified events, such as power outage or fire alarm.

Suggested uses:
- Near stairs
- Near emergency exits
- Hallways

Personal Alarm Pendant

Personal waterproof alarm device to send an alert in case of emergency, such as a fall/accident.

Suggested uses:
- Wear as a necklace
- Wear as a bracelet
