With over 80,000 happy individuals using our weight loss and increased vitality systems, we have fine-tuned an extremely effective and very affordable system that will help you drop weight fast and keep it off. **Here's how it works:**

- Our synergistic combination of advanced supplements, proper diet, little to no exercise, and the right mindset create a winning combination to reach your optimal weight. This proprietary weight loss system strategically triggers the brain to release and burn stored fat in your body, curbing your appetite so you are less likely to overeat.
- Most people following the RX2Live System lose 8 to 15 pounds during the first 10 days and feel great. Clothes become loose, not your skin, because you are losing fat and excess water weight, not muscle mass. Within two to three weeks you will see and feel a big difference. You will look and feel great. Your family and friends will notice the difference in you.
- Not only will you see immediate results with this diet but you can rest assured that it is completely safe. In many cases it will actually reset the hypothalamus gland which regulates how and where your body will store fat in the future. Therefore, most people drop weight quickly and are able to keep it off indefinitely.
