Healthy Minds at Home

Healthy Minds at Home Services

Services are provided by a multidisciplinary team who provides comprehensive short-term intermittent home health services. The team is made up of Psychiatric-Mental Health Nurses, Social Workers, Physical, Speech and Occupational Therapists and Home Health Aides who can meet the holistic needs of the client. The staff are trained and certified Behavioral Health and Alzheimer Specialists.

- Alzheimer's Program

1.800.Homecare (1.800.466.3227)

The Alzheimer's disease/Dementia Program is part of our certified homecare division and covered under Medicare. Through training the Certified Dementia Specialists staff are able to help persons with dementia and their caregivers have successful and meaningful interactions. The techniques utilized are practical and effective, helping individuals successfully remain in the home.

- Behavioral Health Program

1.800.Homecare (1.800.466.3227)

Behavioral Health Recovery Program that provides services for the homebound elderly (not a chronic medication administration program). Comprehensive approach to assisting seniors with a mental health or dementia diagnosis with or without other concomitant medical issues to receive care in their home under the guidance of one of our specially trained certified behavioral health nurse case managers.
